

ARTIFICIAL INTELLIGENCE

USE BY STUDENTS

Teesside University supports the appropriate and ethical use of generative AI tools such as ChatGPT, Bard & Adobe Firefly.

These tools have the power to enhance and support your learning experience in numerous ways, for example:

ALWAYS assess the accuracy and potential biases in the output generated by AI tools.

ALWAYS acknowledge the use of AI tools when they contribute to the development of your assessed work

NEVER accept everything generated by AI tools as factual and correct, even if it appears convincing. Validate your sources

NEVER submit AI-generated work as your own, it is important to use your own words rather than relying solely on the content generated by AI.

NEVER provide personal or sensitive information to AI tools, as it is uncertain how such data will be stored, accessed, and potentially used by others.
